COMPANY PROFILE

AT Ventures

An owner-operated courier startup

Henderson and the Las Vegas Valley, Nevada

BUSINESS OVERVIEW

A shop owner who leaves to deliver an order may have to close the counter. AT Ventures is building a local courier service for shops and offices in the Las Vegas Valley. The owner brings experience sorting packages in a warehouse and running a mobile service business in Henderson.

PLANNED SERVICES

Local packages	Pickup and drop-off for parcels and boxed orders.
Business courier	Documents and small items moving between business locations.
Weekly pickup routes	A proposed shared pickup day for nearby shops and offices with recurring delivery needs.

FIRST MILESTONE AND PROPOSED USE OF FUNDING

Test one weekly route. Start by asking business owners about pickup windows and destinations. Startup funding would help test route-planning tools and digital records of pickups and deliveries on that pilot route.

Before adding a second route, review repeat bookings, on-time deliveries, and miles per stop to see whether expansion can pay for itself.
